

## Society of Ancients – Wargames Championship

### A) **Eligible Players**

Any member of the Society of Ancients whose membership runs from January 2009 to December 2009. Only two games may be played against the same opponent.

### B) **Eligible Games**

Any game between two players and depicting conflicts between fighting forces prior to 1500AD. Single person-to-person combat and completely imaginary armies are not eligible.

### C) **Authentication of Results**

The Championship Organiser must be satisfied that the submitted result is for an eligible game between eligible players and that BOTH players have authenticated the result.

Results can be submitted by post, or by e-mail – but in the latter case there must be an email from EACH player’s own email address – not just one.

Most members already have an e-mail address registered with the Society, if you have not then ensure that your first result submission attests your email address.

All results must be in the hands of the Championship Organiser within one month of the date of the game – that should allow for the slowest of snail mail.

### D) **Calculation and Display of Results**

The winner of a game gains 3 points – the loser nothing. Drawn games result in each player gaining 1 point. The total points gained by a competitor will be divided by 5 or by the number of the games which the player has played – whichever is the greater.

The final results will include the player’s score as well as the number of games they have played.

In the event of a tie for first place the player with the most games will be considered the winner – and if this also results in a tie the player who won the most games will be the winner.

Quarterly results summaries will be made available – either in Slingshot or on the web site.

### E) **Adjudication**

The Championship Organiser’s decision as regards eligibility and authentication of results will be final and subject only to the Committee on appeal.
